ANUMAKA VIVIAN CHIZOBA

JUNIOR DATA ANALYST

Public Administration | Data Analysis | Research & Decision Support

Lagos, Nigeria | Phone: 09079209091 | Email: anumakavivianchizoba@gmail.com
LinkedIn: https://www.linkedin.com/in/anumaka-vivian-chizoba-990b50246

PROFESSIONAL SUMMARY

Junior Public Sector Data Analyst and Public Administration student with practical experience in data cleaning, analysis, reporting and dashboard development. Skilled in Excel, Power Query, Power BI and SQL, with academic knowledge of public budgeting, administrative reforms, governance, research methodology and development administration. Experienced in working with household, economic and demographic datasets to identify patterns, compare outcomes and communicate findings clearly. Brings over eight years of professional experience involving information handling, customer support, financial transactions, record accuracy and target-driven work. Interested in applying data and research to support evidence-based planning, policy analysis and public-sector decision-making.

CORE SKILLS

Data Analysis & Interpretation • Data Cleaning & Validation • Research & Evidence Analysis • Data Visualization • Dashboard Development • Reporting & Data Presentation • Trend & Comparative Analysis • Data Management • Public-Sector Research • Public Budgeting & Administration • Problem Solving • Stakeholder Communication

TECHNICAL SKILLS

Excel: PivotTables, XLOOKUP, VLOOKUP, INDEX/MATCH, SUMIF, Conditional Formatting, Data Cleaning
Power Query: Data Transformation, Cleaning & Standardization
Power BI: Dashboard Development, DAX, KPI Cards, Slicers & Data Visualization
SQL/SSMS: Filtering, Aggregation, Joins, Subqueries & Data Exploration
Microsoft Word: Report Writing, Document Formatting, Tables and Proofreading

PROFESSIONAL EXPERIENCE

DATA ANALYTICS INTERN | HNG TECH *2026*

- Queried and analyzed transaction datasets using SQL/SSMS to examine revenue trends and customer behaviour.
- Cleaned and standardized datasets by addressing NULL values, inconsistencies and formatting issues.
- Used Excel PivotTables, Power Query and lookup functions to organize, summarize and cross-reference data.
- Developed Power BI dashboards using DAX measures, KPI cards and interactive visualizations.
- Worked with team members during data exploration and communicated findings through clear business observations.

LOAN COLLECTION OFFICER | EMTILL SOLUTION *October 2023 – February 2026*

- Managed loan repayment follow-ups and communicated with customers regarding outstanding payments.
- Assisted customers with account and repayment-related issues and helped resolve concerns.
- Worked toward collection targets of ₦2 million and above.
- Maintained accurate customer and repayment information while managing multiple accounts and follow-ups.

CUSTOMER SERVICE REPRESENTATIVE | BUSINESS STANDARDS *May 2017 – May 2023*

- Assisted customers with inquiries, complaints and product-related issues.
- Handled cash deposits and withdrawals exceeding ₦1 million as part of daily customer transactions.
- Supported product promotion and business sales activities.
- Maintained accuracy and attention to detail when handling customer information and financial transactions.

SELECTED DATA ANALYTICS PROJECTS

NIGERIA GHS-PANEL WAVE 5: DIGITAL FARMING INFORMATION ACCESS *Excel | Power BI*

- Analyzed access to digital farming information among rural and urban farming households using the GHS-Panel Wave 5 datasets (1,861 households, of which 1,527 were identified as farming households).
- Found that about 11% of farming households (167) reported access to digital farming information, while about 4% (68) reported no access.
- Treated the roughly 85% non-response rate as a key finding rather than a headline access rate, to show how far the access share can be relied on.
- Created a dashboard and visualizations to communicate the access and non-response findings clearly.

EXTERNAL DEBT ANALYSIS 2020–2024 (WORLD BANK DATA) *Excel*

- Analyzed external debt data for 20 countries from 2020 to 2024, comparing country-level debt levels and growth rates.

- Found that China accounted for approximately 40% of the 2024 total external debt analyzed ($2.42T of about $6.05T).
- Identified Fiji as the fastest-growing country at 89%, followed by Togo at 67% and Benin at 66%.
- Built an interactive dashboard with KPI cards, slicers and charts showing debt levels, growth rates and the 2020–2024 debt trajectory.

LIFE EXPECTANCY ANALYSIS (G20 COUNTRIES) *Excel*

- Analyzed life expectancy at birth for the 19 G20 member countries from 2000 to 2021.
- Built an interactive dashboard using PivotTables, slicers and charts to examine life expectancy by country, year and gender.
- Found that Japan had the highest average life expectancy among the 19 countries, and that women live about 5 years longer than men on average (78 vs 73 years), with Russia showing the widest gender gap at about 12 years.

VOLUNTEER EXPERIENCE

VOLUNTEER EXCEL INSTRUCTOR | SAVE AFRICAN CHILDREN ON SOCIAL VICES INITIATIVE *September 2026*

- Volunteered to teach Excel PivotTables and dashboard building to about 15 to 20 learners.

EDUCATION

B.Sc. PUBLIC ADMINISTRATION | UNIVERSITY OF LAGOS *2022 – 2027 (In Progress)*

Relevant Coursework: Research Methodology I; Politics of Administrative Reforms in Nigeria; Public Budgeting; Public Enterprise Management; Administrative Law; Rural and Urban Development Administration; Civil Society and Governance; Leadership and Governance; Corporate Governance; Organisation, Conflict and Management.

CERTIFICATIONS & TRAINING

- Data Analytics Certificate, TS Academy (three-month Data Analytics Training), July 2026
- Data Analysis Training, Save African Children on Social Vices Initiative
- Introduction to Microsoft Excel, Simplilearn
- Excel Dashboard for Beginners, Simplilearn Education
